## PENNGUARD™ Adhesive Membrane: New Package Design

ErgonArmor is pleased to announce that a new PENNGUARD Adhesive Membrane lithographed pail design will be implemented on future orders of PENNGUARD Adhesive Membrane. This updated pail design is part of a successful strategy addressing brand elevation, information access and regulatory compliance that includes the following added features:

1. QR code for on-site access to product documentation
2. Updating OSHA GHS information
3. Updated branding standards

Only the pail design has changed. The contents remain the same. The following images show the difference between the original PENNGUARD Adhesive Membrane design on the left and the updated pail design on the right.
